

Just last week PVE was recognized as the 3rd safest city in California!

This wasn't by chance. **It is due to the commitment of the PVE Police officers that serve our Community, serve you and, most importantly, serve your family.**

Our department includes the PV CARES for seniors, Neighborhood Watch, and Emergency Preparedness We simply can't lose these services.

There is a small but very vocal group of people who are trying to undo Measure E and replace our force with Sheriffs.

Our police force has served us loyally and effectively using Community Policing since 1924. Our police department is unique and unparalleled. They provide responsive and attentive service catered to our community and residents.

As I have so resolutely done as your current City Councilman, I will continue to protect our Police as well as the architectural heritage that makes us so unique. This includes the Malaga Cove Plaza, Neptune Statue, Mirlo Gate Tower, and Neighborhood Church. I deeply value our recreational facilities the PVE Golf Club, PVE Tennis Club, Beach Club, and PVE Stables that are part of our heritage as well.

As your Councilman I spearheaded the Measure E Campaign to keep our dedicated police.

Recently our police renewed their contract with no salary increase!

We are very lucky in our city to have such commitment.

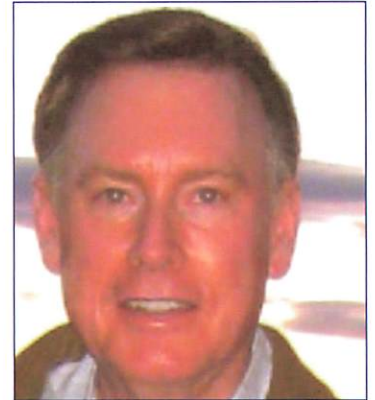

Please help me reach my goal of protecting and preserving the city of Palos Verdes Estates, our home.

With gratitude,

Sandy Davidson

PVE City Council Member
