PVE CITY COUNCIL

**WE NEED LEADERSHIP  
NOT UGLY SMEAR CAMPAIGNS**

**WE NEED LEADERSHIP with SOLUTIONS. My proposals:**

**PROTECT OUR LAND** and rural character of PVE: Preservation Act #2

Require voter approval before Council can sell parkland or pursue major development that changes the rural design of the city

**SAFETY:**

- *Really* save our PVE police: fully fund the police department
- Create a proactive burglary prevention program

**BALANCE the BUDGET:**

- Include all expenses in the budget
- Fix the pension problem

**TRANSPARENCY:**

- Fact-based decision making with full disclosure to balance interests and achieve consensus and fairness
- Fully disclose the Malaga Cove urbanization study and allow residents to attend the meetings. This is OUR land.

Residents need a seat at the table, full disclosure and candor in the operations of their government.

**Dez4PVE.com**

**Building trust as a  
voice for the community**

## WE NEED LEADERSHIP NOT UGLY SMEAR CAMPAIGNS

Residents need a fresh voice with solutions. Ugly smear campaigns are a deflection from problems that have worsened in four years.

My approach video:

**TRUST WAS LOST on:**

- The roundabout
- Kicking the can down the road rather than balancing the budget

The city is studying the urbanization of Malaga Cove Plaza with high density housing. Transparency is crucial.

**ISSUES IMPORTANT TO RESIDENTS HAVE WORSENERD:**

- **SAFETY:** Burglaries have increased and unaddressed financial problems have placed retention of our police is at risk
- **STABILITY:** The City forecasted cash deficits to begin next year
